

Feli Fernández – Short CV

Feli Fernández is an agronomist by training and a fruit breeder by trade. She has worked at East Malling (UK) since 2001 with an involvement in rootstock breeding and genetics since 2003. She has managed the East Malling Rootstock Club for 12 years working closely with PhD students and other researchers to better understand relevant genetic traits. Feli is also responsible for commercially-funded cane fruit breeding at NIAB EMR.
