

PommaQuality

1 Photograph

A photo of the apple bin is taken with a ping pong ball for size reference.

2 Visualize

AI analyzes the photo, assesses the size of the apples using the ball as a reference, and determines their coloration.

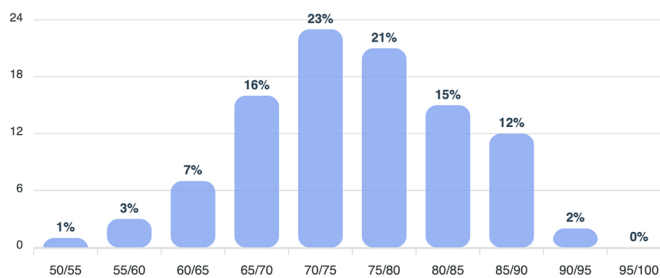

3 Analyze

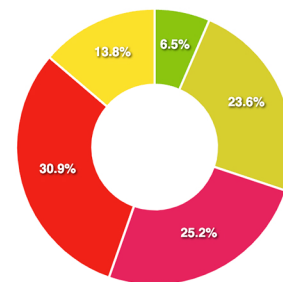

The analyzed data is sent to a computer for instant visualization, aiding in post-harvest decision-making.

CH09 CBO - BOISSON / DALIRYAN (2012)

Calibres (724 fruits)

Coloration (724 fruits)

Défauts (500 fruits)
