

F24 Quantum SPACE

F24 Quantum SPACE

TECHNOLOGIES	SKIER BENEFIT
OVERLAP CO-INJECTED CUFF	Performance in skiing – Stiffer back part for a great rear support Comfortable, intuitive and easy handling due to the softer front panels
ANTIABRASION GAITER	New long-lasting material on the gaiter
AUTOFIT TONGUE	A superior comfort from the very first fit Comfort in skiing also on rough and bumpy conditions
RIVETS FREE	Sustainable story for a better conservation of the mountains The main parts and components are replaceable, without changing the ski boot
VIBRAM DUAL DENSITY SOLE	Better comfort in walking thanks to a superior grip Better performance in the lateral power transmission thanks to the stiffer front and back rubber
